INDEX BY SUBJECT

Accounting

"Evidence of Earnings Management from the Measurement of the Deferred Tax Allowance Account," Chia-Ling Chao, Richard L. Kelsey, Shwu-Min Horng, and Chui-Yu Chiu — 49(1):63–93

Capacity Expansion

"The Effect of Technological Improvement on Capacity Expansion for Uncertain Exponential Demand with Lead Times," Dohyun Pak, Nattapol Pornsalnuwat, and Sarah M. Ryan — 49(2):95–118

Capital Investment Analysis

"Investment Analysis for Automotive Electronics Manufacturing: A Case Study," John L. Evans, Duoxing Zhang, Nathan Vogt, and James R. Thompson — 49(2):159–183

Case Studies

"A Virtual Classroom Experiment for Teaching Engineering Economy," William G. Sullivan, Janis P. Terpenny, and Harpreet Singh — 49(4):279–306

"An Application of Activity Based Costing in the Air Conditioner Manufacturing Industry," Heather Nachtmann and Mohammad Hani Al-Rifai — 49(3):221–236

"Applying Monte Carlo Simulation and Risk Analysis to the Facility Location Problem," Justin Ridlehoover — 49(3):237–252

"Case Study: Bus Fleet Replacement," Pinar Keles and Joseph C. Hartman — 49(3):253–278

"Economic Analysis in the Maintenance, Repair, and Overhaul Industry: An Options Approach," Luke T. Miller and Chan S. Park — 49(1):21–41

"Investment Analysis for Automotive Electronics Manufacturing: A Case Study," John L. Evans, Duoxing Zhang, Nathan Vogt, and James R. Thompson — 49(2):159–183

"The Engineering Learning Portal for Problem Solving: Experience in a Large Engineering Economy Class," Sarah M. Ryan, John K. Jackman, Frank E. Peters, Sigurdur Ólafsson, and Mary E. Huba — 49(1):1–19

"Using an Options Approach to Evaluated Korean Information Technology Infrastructure," Luke Miller, Sung H. Choi, and Chan S. Park — 49(3):199–219

Cost Accounting

"An Application of Activity Based Costing in the Air Conditioner Manufacturing Industry," Heather Nachtmann and Mohammad Hani Al-Rifai — 49(3):221–236

"Breaking Down a Long-Run Marginal Cost of an LP Investment Model into a Marginal Operating Cost and a Marginal Equivalent Investment Cost," Axel Pierru and Denis Babusiaux — 49(4):307–326

Cost Control

"An Analysis of Contract Cost Phasing on Engineering and Construction Projects," T. C. Berends and J. S. Dhillon — 49(4):327–337

Decision Analysis

"Ranking Mutually Exclusive Projects: The Role of Duration," L. Dwayne Barney Jr. and Morris G. Danielson — 49(1):43–61

"Technical Note—The Internal Rate of Return (IRR) as a Financial Indicator," Miroslaw M. Hajdasinski — 49(2):185–197

"The Relevant Internal Rate of Return," Joseph C. Hartman and Ingrid C. Schafrick — 49(2):139–158

Decision Theory

"Technical note: Comparative Static Analysis of Information Value in a Canonical Decision Problem," Jeffrey M. Keisler — 49(4):339–349

Education

"A Virtual Classroom Experiment for Teaching Engineering Economy," William G. Sullivan, Janis P. Terpenny, and Harpreet Singh — 49(4):279–306

"The Engineering Learning Portal for Problem Solving: Experience in a Large Engineering Economy Class," Sarah M. Ryan, John K. Jackman, Frank E. Peters, Sigurdur Ólafsson, and Mary E. Huba — 49(1):1–19

Inventory

"Technical Note: Approximation Solution for the Inventory Model with Random Planning Horizon," Gino K. Yang, Ming-Heng Wang, Peter Chu, Daisy Huang, and Peter S. Deng — 49(4):351–362

Maintenance

"Economic Analysis in the Maintenance, Repair, and Overhaul Industry: An Options Approach," Luke T. Miller and Chan S. Park — 49(1):21–41

Mathematical Programming

"Breaking Down a Long-Run Marginal Cost of an LP Investment Model into a Marginal Operating Cost and a Marginal Equivalent Investment Cost," Axel Pierru and Denis Babusiaux — 49(4):307–326

"Case Study: Bus Fleet Replacement," Pinar Keles and Joseph C. Hartman — 49(3):253–278

Measures of Worth

"Ranking Mutually Exclusive Projects: The Role of Duration," L. Dwayne Barney Jr. and Morris G. Danielson — 49(1):43–61

"Technical Note—The Internal Rate of Return (IRR) as a Financial Indicator," Miroslaw M. Hajdasinski — 49(2):185–197

"The Relevant Internal Rate of Return," Joseph C. Hartman and Ingrid C. Schafrick — 49(2):139–158

Plant Location

"Applying Monte Carlo Simulation and Risk Analysis to the Facility Location Problem," Justin Ridlehoover — 49(3):237–252

Production Economics

"Technical Note: Approximation Solution for the Inventory Model with Random Planning Horizon," Gino K. Yang, Ming-Heng Wang, Peter Chu, Daisy Huang, and Peter S. Deng — 49(4):351–362

Project Control

"An Analysis of Contract Cost Phasing on Engineering and Construction Projects," T. C. Berends and J. S. Dhillon — 49(4):327–337

Real Options

"Economic Analysis in the Maintenance, Repair, and Overhaul Industry: An Options Approach," Luke T. Miller and Chan S. Park — 49(1):21–41

"Real Options Volatility Estimation with Correlated Inputs," Barry R. Cobb and John M. Charnes — 49(2):119–137

"Using an Options Approach to Evaluated Korean Information Technology Infrastructure," Luke Miller, Sung H. Choi, and Chan S. Park — 49(3):199–219

Replacement Analysis

"Case Study: Bus Fleet Replacement," Pinar Keles and Joseph C. Hartman — 49(3):253–278

Risk Analysis

"Real Options Volatility Estimation with Correlated Inputs," Barry R. Cobb and John M. Charnes — 49(2):119–137

"Technical note: Comparative Static Analysis of Information Value in a Canonical Decision Problem," Jeffrey M. Keisler — 49(4):339–349

"The Effect of Technological Improvement on Capacity Expansion for Uncertain Exponential Demand with Lead Times," Dohyun Pak, Nattapol Pornsalnuwat, and Sarah M. Ryan — 49(2):95–118

Simulation

"Applying Monte Carlo Simulation and Risk Analysis to the Facility Location Problem," Justin Ridlehoover — 49(3):237–252

Taxation

"Evidence of Earnings Management from the Measurement of the Deferred Tax Allowance Account," Chia-Ling Chao, Richard L. Kelsey, Shwu-Min Horng, and Chui-Yu Chiu — 49(1):63–93
